RE: Hazard Communication Safety Data Sheet and Hazard Communication Standard Labels

To whom it may concern,

The Hazard Communication Standard (HCS) requirements for chemical manufacturers, distributors, or importers do not apply to Noble Niches.

Noble Niches are considered an article under [29 CFR 1910.1200](#).

"[Article](#)" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a [hazardous chemical](#) (as determined under [paragraph \(d\) of this section](#)), and does not pose a [physical hazard](#) or health risk to employees.

As such, Hazard Communication Safety Data Sheets and Hazard Communication Standard Labels are not required.

Thank you for your business.

Sincerely,

A handwritten signature in black ink that reads 'James A. Wadaga'.

James Wadaga  
Sr. Engineer  
Noble Company.
